About the Company

CBH FASTENERS
Fastening the world together...

Capital Bolts and Hardwares is a large-scale company specializing in producing standard fasteners. Our company was established in 1959 and is located at Capital Towers, Gill Road, Miller Ganj, Ludhiana, Punjab which is the biggest national fastener distributing center. Our company covers an area of more than ten thousand square meters and is next to the G.T. Road (City Limits). What's more, the transportation here is convenient because the Ludhiana Railway Station is just 2 kms and National Airport Sahnewal (Ludhiana) is 12 kms. away from the company. After many years of development, our company has advanced facilities for producing screw bolts and complete equipment for product inspection.

Satish Kumar Nagpal *Chairman*

Our company specializes in producing high strength bolts with large hexagon head for steel structures, high-strength bolts and nuts of grade 4.6, 4.8, 5.6, 6.8, 8.8, 10.9 & 12.9, hot dip galvanizing standard components, electro-galvanized standard components, double threaded bolts, full thread screws, foundation bolts, high quality fasteners as per ANSI, DIN and BS standards, plain cushions, spring cushions, inner-hexagon bolts, iron pagoda bolts and nut sets, guardrail bolts used in expressways and special shaped components with various lengths and specifications of m12 to m68.

Hitesh Nagpal *Director*

We have won an excellent reputation in fastener industry with high quality products and considerate services for a long time. Our products sell well all over our country and are exported to many countries and regions, such as Southeast Asia, the Middle East, Europe and America. What's more, we have received high public praises and our company was awarded titles of "Honor Credit and Promise", "The Leading Enterprise in Fasteners Industry" and "Civilized Enterprise". Our company always adheres to the principle of "Quality first and good faith supreme". To satisfy our customers, is our persistent aim. We sincerely welcome the visits of all customers as well as the negotiations with business partners from all over the world.

www.capitalbolts.in

Our company is vowed to save our environment. So to preserve our Mother Earth, we have started a Green Initiative. We get our products manufactured at environmental friendly premises are coated from ROHS compliant companies and we work with vendors who strictly adhere to affluent treatment and disposal norms. Furthermore, we plant a tree for every new customer who becomes a part of our family. So lets work together as a team to Save Our Environment and do business for each other's growth.

LIST OF PREREQUISITES FOR TESTING LAB

Sr. No.	Machine Name	Range	Make	Testing Parameters/Usage
1.	Spectro Machine	-	AMTEK / METALPOWER	To check Chemical composition of material
2.	Universal Testing Machine with Computer software	0-1000 kN	FIE	To evaluate mechanical property of material such as Tensile Strength, Yield Strength, Elongation, Proof Stress, Compression load , etc.
3.	Rockwell Hardness Tester	0-100 HRB/HRC	SAROJ	To evalute Hardness of Material at Load 100 Kgf and 150 Kgf
4.	Vicker Hardness Tester with software	-	-	To evalute Hardness of Material at Load 5 Kgf to 50 Kgf
5.	Impact Testing Machine (Charpy Machine) with cooling chamber	-	-	To perform Impact Testing on samples at minus temperature as per relevant standard
6.	Torque Testing Machine with tension cell	-	-	To check Torque, Clamp / Tension Force, Cofficient of friction, etc
7.	Metallurigical Microscope (100X)	-	Dewinter	To check Decarburization, Carburization, material's structure etc.
8.	Profile Projector	-	-	To check dimensions of article which are immeasureble by vernier and other instruments
9.	Thread Ring Gauges 6g & 6h	M4 to M39 (Depends upon Sizes)	-	To check Thread profile, Major dia & Minor dia of External Thread Fasteners
10.	Thread Plug Gauges 6H	M4 to M39 (Depends upon Sizes)	-	To check Thread profile, Major dia & Minor dia of Internal Thread Fasteners
11.	Vernier Caliper	0-200mm	Mitutoyo	To check dimensions of article
12.	Micrometer	0-25mm, 25-50mm	Mitutoyo	To check thickness and diameter
13.	Elcometer	0-2000 Microns	-	To check coating thickness on material

Grade / Class & Fastener Strength

Fastener Grade (US) or Class (metric) refers to the mechanical proper- ties of the fastener material. Generally, a higher number indicates a stronger, more hardened (but also more brittle) fastener.

US bolt head markings

Low Carbon | Grade 5 | Grade 8

Metric bolt head markings

Class 8.8 | Class 10.9 | Class 12.9

Note: In addition to these markings, the head will often have a manufacturer stamp.
